Noted attorneys, military experts, and transparency advocates who support Private First Class Bradley Manning held a press teleconference this morning (Wed., May 25, 2011, 11:00am ET) to discuss updates in Manning's situation. PFC Bradley Manning is accused of being the source of revelations leaked to WikiLeaks, including diplomatic cables that many experts believe helped to catalyze democratic revolts across the Middle East. His supporters assert that the information PFC Manning is accused of revealing should have been in the public domain.
