

By Bart Boyce of the Houston Progressive Action Alliance     A small number of people - mostly World Can't Wait people and a small representation from PAA and other groups - came to protest John Yoo when he spoke at the Houston Club. It would seem that in a city our size a few more would take the time to protest the absolute evil that Yoo and Bybee represent in our society. These are the men that inked the torture memo's giving the Bush/Cheney cabal carte blanche to justify Abu Ghraib among other war atrocities .

Upon arrival , the Professor/Attorney was greeted by a chanting group.
