

On August 5, World Can't Wait put out a call to [Stop Israel's War Crimes & Crimes Against Humanity on the People of Gaza.](#)

The mission was to bring the reality of what Operation "Protective Edge" did to the people of Gaza, and why this rose to the level of "war crimes;" to expose the role of the United States in fully backing Israel politically and militarily; and to challenge all watching to bring forth resistance to stop these crimes that is much more broad, diverse, and determined.

Speakers from the U.S. and around the world made great efforts to contribute, and powerfully amplify the call.

Recorded at Cooper Union in NYC.
