

Celebrating not just 42 years and 200 issues of *the Nuclear Resister* - but four+ decades of a vibrant, persistent, creative, international, inspiring, courageous and hopeful resistance movement for a peaceful and nuclear free future!

Issue #200 of the Nuclear Resister newsletter is hot off the press! Since 1980, the Nuclear Resister has reported on more than 100,000 anti-nuclear and anti-war arrests while encouraging support for more than 1,000 imprisoned activists. Nuclear Resister coordinators Felice & Jack Cohen-Joppa invite you to this special online celebration on December 3, 2022, which includes photos, songs and stories from decades of direct actions and more, honoring our resistance history and drawing inspiration for today's movement for a peaceful, nuclear-free future.
