## Academia: A Last Refuge for War Criminals

University Ave, Berkeley, Fall 2008, -Berkeley Daily Planet

This week, Condoleezza Rice returned to academia, following in Berkeley's Torture Professor John Yoo's footsteps. After authorizing, codifying, and accelerating the most egregious assaults on human lives during our time—war, murder, torture, secret rendition, arbitrary indefinite detention, surveillance, and the destruction of the global environment, Condi has returned to Stanford to seek "cover" and protection among peers for her flagrant violations of professional ethics and reasonable academic standards. Will we as students allow Condi and Yoo's illegitimately

implemented ideologies—ideas that have become the material realities whose deadly effects continue to have serious consequences for the entire earth—be legitimized by polite academic discourse and scholarly debate? **It is on the students to answer this challenge and not remain silent and complicit in sharing common ground with war criminals in our classrooms and on our campuses. The future of humanity depends on it.**

**SILENCE + TORTURE = COMPLICITY**
