

# PROSECUTE JOHN BRENNAN

\* Obama's "drone czar."  
Current Director of the CIA.

\* Brennan was the first Obama administration official to publicly acknowledge CIA drone attacks killing thousands in Pakistan, Yemen, Somalia, Libya, Afghanistan and elsewhere, arguing for the legality, morality and effectiveness

of the program. Brennan has been considered "assassination czar" for his central role in planning and approving of drone strikes and who gets targeted.

\* Under Bush, Brennan gave full support to CIA Director George Tenet in providing fraudulent intelligence in an attempt to justify a war of aggression against Iraq.

The war in Iraq was launched "under false pretenses," as corroborated by a bipartisan five-year investigation.

\* Ardent public supporter of the kidnapping/rendering of suspected terrorists to "friendly" Arab intelligence services for torture. Defended the use of U.S. secret prisons abroad.
