**THE REAL**

## **DECISION POINTS by the numbers...**

George W. Bush (aka **43**) lied about WMDs to start a **\$3 trillion** war in Iraq that killed over **4,000** US soldiers and **1.4 million** Iraqis but made his cronies (and buddies at Halliburton) **very stinkin' rich**.

He suspended the Geneva Conventions, condoned **countless acts** of torture, and held prisoners **indefinitely** without access to legal counsel.

Today, he has what is being called the **single biggest** PR roll out of any book in history. **Ka-ching!**

In this book, Bush claims to be setting the record straight. Well, we think it's time to set the record straight too. Join us in moving Bush's memoir to the bookstore section it belongs to... Fiction, Fantasy, Crime, you decide!
